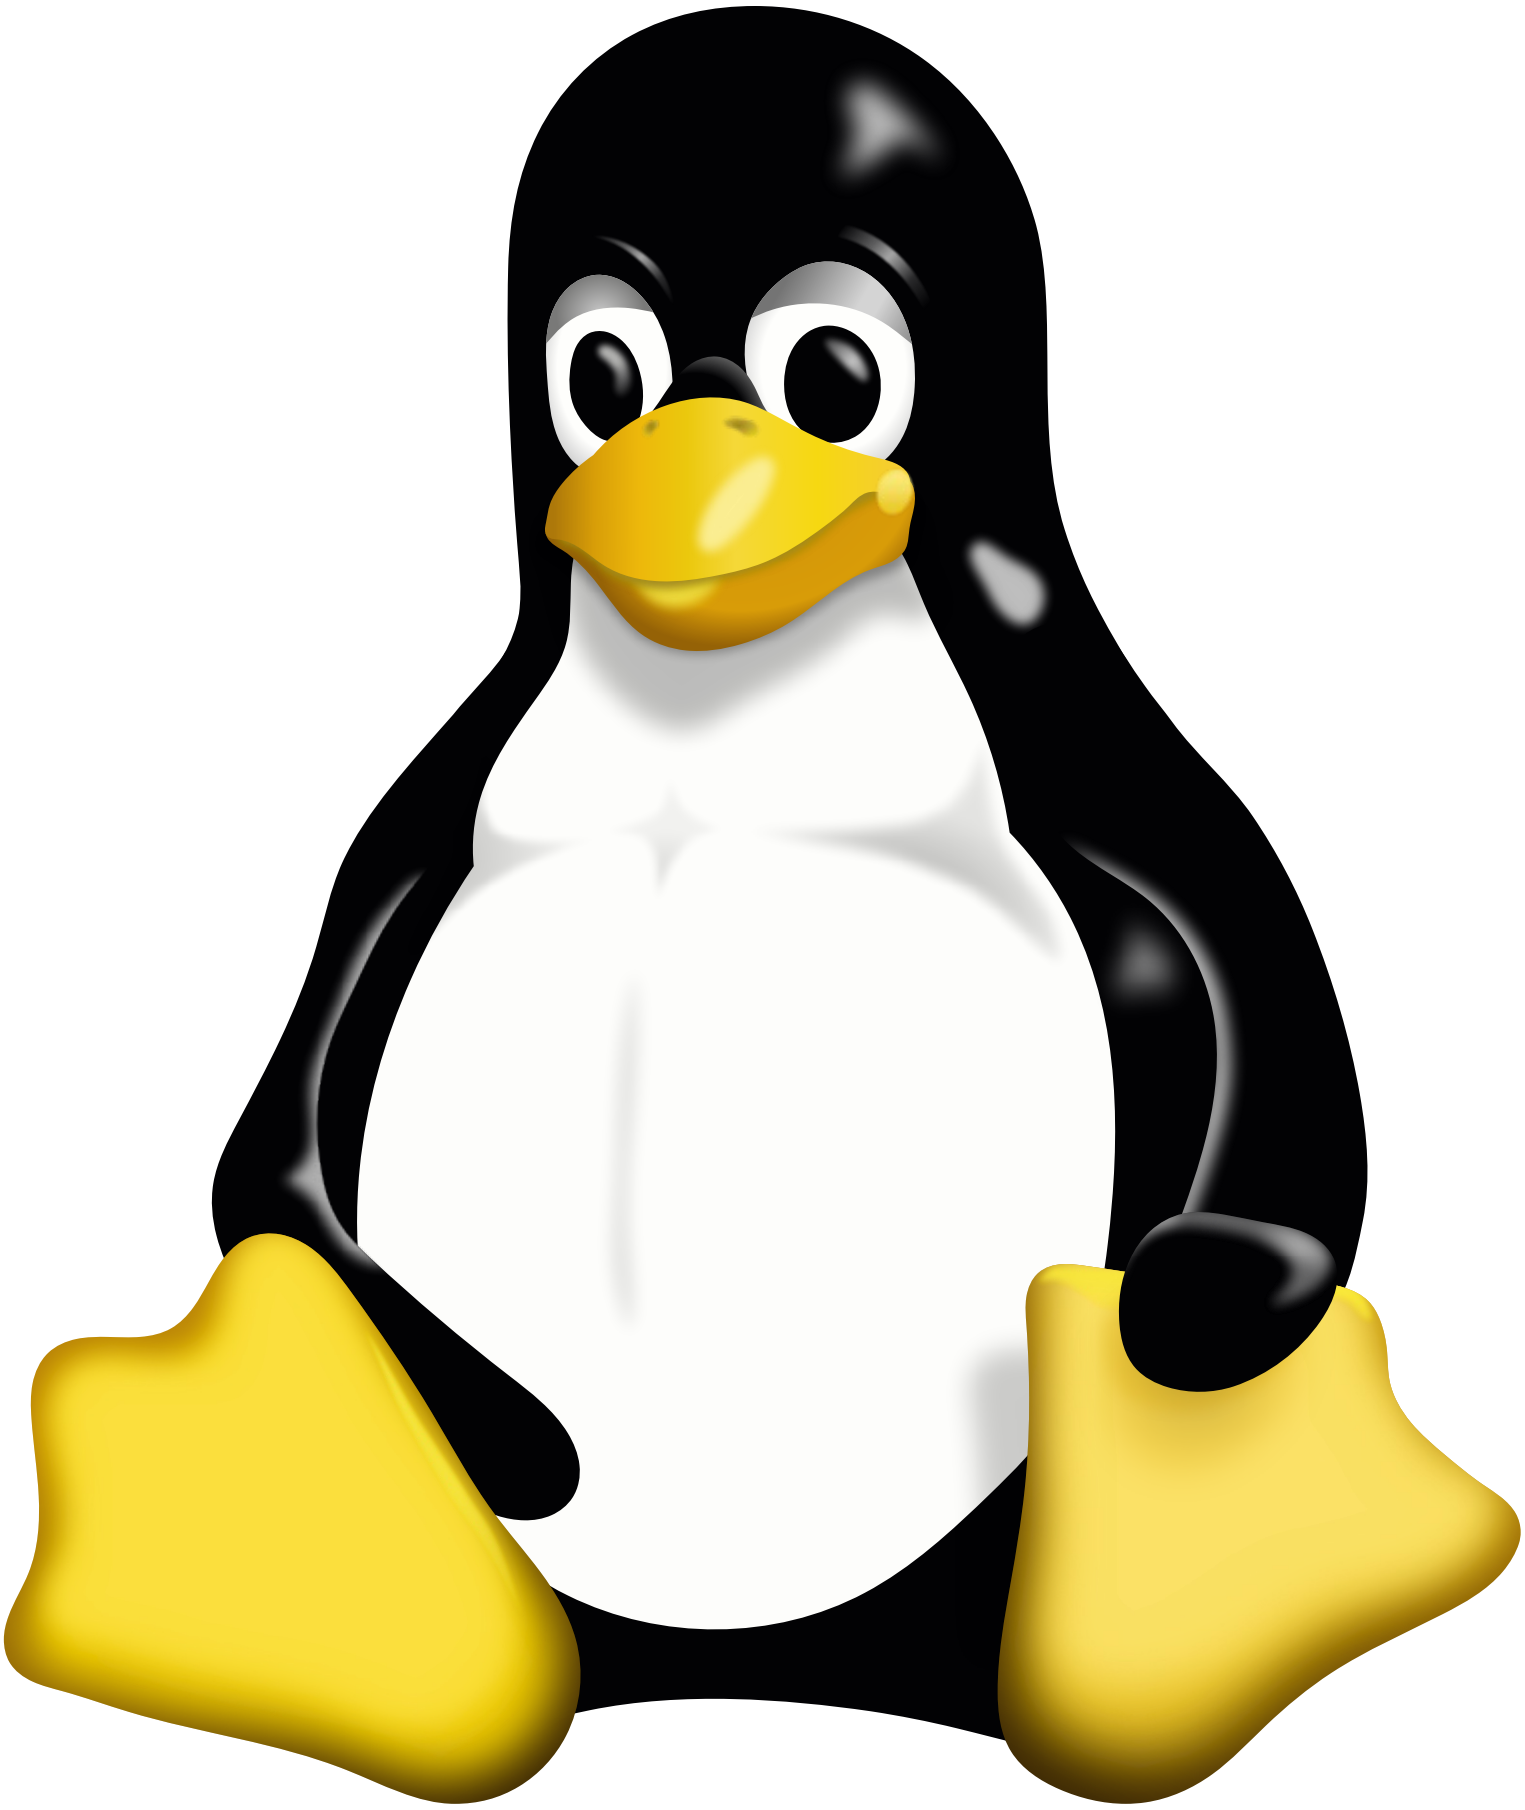
## 🛠 Skills



## 🗣️ Languages

English Intermediate

## Experience

### Embedded Systems Hobbyist

2019 – Present

Building firmware projects, bare-metal microcontroller experiments, and electronics repairs.

## 🎓 Education

### BSc Computer Science

In Progress

Learning Linux, programming, and electronics. Building foundational knowledge in computer systems.

## Projects Basement

### Tiny OS Bootloader

Bare-metal experiment to boot and print hello from scratch.

### MCU Firmware Skeleton

Minimal firmware base for ARM Cortex-M microcontrollers.

### Electronics Repair Lab

Notes and experiments on repairing boards, chargers, and cables.
